# Outreach and Training

## The WTI network

The WTI cooperates with a number of institutions through Memoranda of Understanding or joint (long-term) projects. These partnerships allows us to carry out joint research and joint summer schools, and also allow us to offer reduced tuition fees for students pre-selected by our partner universities.

## Policy research

The WTI offers research-based contract-work for a range of stakeholder institutions in the fields of international trade and investment. WTI experts are currently actively engaged in providing opinions and advice on topics such as WTO reform, US trade policy and Brexit.

## Dissemination

The WTI seeks to present its outputs externally, enhance WTI participation in local, national and international policy discussions and debates, and promote the general visibility of the University of Bern.

## Events

The WTI both hosts and co-organises a number of events and activities. These include workshops, tailor-made training, doctoral colloquia, larger conferences and smaller seminars. Of special note is the WTI-EUI annual World Trade Forum and the WTI Global Economic Governance Seminar Series.

# Tailor-made training

Department for  
International Trade

وزارة التجارة والصناعة  
Ministry of Commerce and Industry

- Our tailor-made training ranges from highly individualised, fine-tuned consultative workshops to practice-oriented courses on applied trade regulation or policy and academic seminars on trade policy modelling and principles.
- The WTI has recently provided training to government officials and delegations from India, Belgium, the United Kingdom, Vietnam, Brazil, Taiwan and more.
- Training of professionals and practitioners (of both the public and private sector) takes place either at WTI premises in Bern or at the client's location.
- Training can last from a single day to several months.
